

Your energy bill

Message Center

This bill reflects a BPU-approved change in the Supply portion of your electric bill, effective on and after September 1, 2023. The increase in the Supply portion of your bill is due to a change in the Transmission rate. As a result of this change, a typical residential customer who receives electric Supply from PSE&G, and uses 740 kilowatt-hours in a summer month and 6,920 kilowatt-hours annually, will see an average monthly increase of \$0.05 or 0.04%. Tariff information may also be found by visiting pseg.com.

How much electric are you using?

Visit MyAccount for more details regarding your energy usage.

Explaining electric charges

We charge for the electric you use in kilowatt hours (kWh). 1 kilowatt is equal to 1,000 watts.

If you use a standard LCD TV which uses ~150 watts while operating, it would take 7 hours of use to equal 1 kWh.

Price to compare

If you want to consider getting your electric supply from another supplier, compare their price with ours. This month, your cost for energy supply is \$65.23 (or an average of 0.137326 per kWh). This *price to compare* varies month to month, depending on your usage.

Your PoD ID is: PE000010608820622784 – Your PoD ID is your Point of Delivery identification within PSE&G's system. You will need this number if you are considering enrolling with another supplier.
